

- To make Gantt chart

- ◆ Each machine may have several couple of points (starting and finishing time) with respect to each given job.
- ◆ So, the results of simulation can be interpreted as a type of graph.
- ◆ A Gantt chart is a type of bar chart that illustrates a project schedule.
- ◆ This assignment is to make a function that draws a Gantt chart with the simulation result.
- ◆ You can use any kinds of graph package.
- ◆ Only constraint is not to use a package which have to be paid.
- ◆ I will also evaluate visibility and aesthetics.
- ◆ Good luck!

Gantt Chart

Task Name	Q1 2019			Q2 2019		Q3 2019
	Jan 19	Feb 19	Mar 19	Apr 19	Jun 19	Jul 19
